3 Autonomy at work

4 Smart Question

Topic 1

Topdown Approach

Topdown Approach

Topdown Approach

Understanding of marco economy

Competitiveness & Penetration

Addressability

- The top-down approach is a problem-solving or design methodology that begins with a broad overview and then gradually focuses on specific details.

- The main idea behind the top-down approach is to break down a complex system into smaller, more manageable parts.

Topdown Approach

Develop outline

Understand the assignment

Focus on details

Define the Overrall

Review & Edit
